## Covid-19 Related Absences Following Public Health Guidance

Children with mild symptoms such as a runny nose, sore throat, or mild cough, who are otherwise well, can continue to attend their education or childcare setting.

Children and young people who are unwell and have a [high temperature](#) should stay at home and where possible avoid contact with other people. They can go back to education or childcare setting when they no longer have a high temperature, and they are well enough.

Should a child or young person have a positive COVID-19 test result they should try to stay at home and where possible avoid contact with other people for 3 days after the day they took the test. The risk of passing the infection on to others is much lower after 3 days, if they feel well and do not have a high temperature.

Children and young people who usually attend an education or childcare setting and who live with someone who has a positive COVID-19 test result should continue to attend as normal.

Anyone over 18 who tests positive for Covid-19 should stay at home and where possible avoid contact with other people for 5 days.
