THINK before you send!

You think you're sharing a funny picture with a friend...

- ...but your Mum could see it
- ...but your Gran could see it
- ...but your neighbour could see it
- ...but a stranger could see it
- ...but your classmates could see it
- ...but your teacher could see it
- ...but a cyberbully could see it
- ...but a burglar could see it
- ...but a policeman could see it
- Anyone in the world could see your butt!

If you share it, you are involved
If you have, or forward an indecent image of someone under 18, it is a criminal offence. It can affect your future.

Online safety is when young people know who they can tell if they feel upset by something that has happened online.

Parents please contact your school to enquire attending their next e-safety workshop or have any concerns.

Consistent efforts to succeed and constantly improve.

E-commerce: E-commerce (electronic commerce) is the buying and selling of goods and services, or the transmitting of funds or data, over an electronic network, primarily the internet. These business transactions occur either as business-to-business (B2B), business-to-consumer (B2C), consumer-to-consumer or consumer-to-business.

Social media: a platform to communicate with others

Marketplace: A marketplace is any location, whether in person or online, that facilitates the exchange of goods between buyers and sellers. A marketplace business model differs from that of a retail store, because transactions happen in both directions, not just one.

Digital wallet: Digital wallets, such as Paytm, use QR (Quick Response) technology to allow users to quickly and easily make transactions. To use this feature, a user simply needs to scan the QR code displayed by the merchant using their digital wallet app.

Demographic: Demographics are statistics that describe populations and their characteristics. Demographic analysis is the study of a population based on factors such as age, race, and sex.

Economy: the process or system of production, distribution, and consumption of goods and services in a country or region. Tourism will help the city's economy.

Key words

- Risk:** Business risk is the exposure a company or organization has to factor(s) that will lower its profits or lead it to fail. Anything that threatens a company's ability to achieve its financial goals is considered a business risk.
- Reward – profit, business success and independence:** The rewards of starting a business might include profit, business success, independence.
- Profit:** Profit describes the financial benefit realized when revenue generated from a business activity exceeds the expenses, costs, and taxes involved in sustaining the activity in question.
- Success:** Successful businesses meet the needs and wants of customers. They identify a pain point or a gap in the market, they conduct deep research on what people are looking for, and they offer a solution to suit.
- Failure:** Business failure refers to a company ceasing operations following its inability to make a profit or to bring in enough revenue to cover its expenses. A profitable business can fail if it does not generate adequate cash flow to meet expenses.

Zoella beauty

- Zoella creates a choice by having multiple sections and in each section is multiple products for you to choose from.
- Zoella's range meets customers need by giving the customers multiple choice of where to access her products including online or in boots or Superdrug.
- Zoella has understood customer needs by having a choice of where to buy her products (convenience). She also has a website that talks about health instead of just selling products into the other rival online that goes along with it.

eg. taking a chance on something might not work. 50/50, without six some good opportunities could have never been given. Eg taking out a loan, applying in new investments.

Reward: a gift or opportunity given after an accomplishment. Eg. growing a business.

Profit: money gain, the money left after you paid your bills. Usually a small amount.

A goal or dream: a business has gone into my's aim.

Complete a goal: business has gone away and profit. An example could be achieving all of your goals.
