How to create an environment for kids to talk

internet
matters.org

1 Talk early and often

- Talk with children from an early age to make it easier to maintain good communication
- Have bitesized conversations that are relevant to them

2 Choose the right time

- Choose to talk when you are due to spend some time together, like over a meal or during their bedtime routine
- Bring digital experience into normal, everyday conversations

3 Open up and share too

- Model the behaviour you want them to show by sharing about your day
- Be open and encouraging to make them feel supported

4 Create a safe space for your child

- Ask open-ended questions
- Ensure that your child feels listened to rather than cornered
- When they start talking, hold off with questions and really listen
- Be prepared, calm and patient with them

- Being [critical about what they see online](#) as not everything is true
- Agreeing digital boundaries to allow them freedom to make informed decisions

- Where & how to [report an issue](#) – encouraging them to speak to an adult

Personal safety

- Keeping info private on devices and apps they use with [privacy settings](#)
- What a secure social media profile looks like
- Create strong passwords for every online account
